

CARE Counseling

The Steve Hicks School of Social Work, in partnership with the Counseling and Mental Health Center, has a CARE counselor located on site. It's common to need support when dealing with feelings and problems that seem beyond your control. CARE counselors support students in a number of different ways. Sometimes we help through a one-time meeting to talk about a specific concern. Other times we might offer short-term counseling. For students who want ongoing support, we can help you navigate connecting to other on-campus and off-campus resources.
